

**Lesson 2: World geography (Continents, oceans, United Kingdom and Egypt)**

- 1) Colour code creating a key or label the continents (the numbers on the map) and the oceans (the letters on the map) of the world. **CHALLENGE:** add the equator and Tropics of Cancer and Capricorn. Can you find any extra information about these?
- 2) Label/colour the UK (United Kingdom) and Egypt. Which continents are they both in?
- 3) One continent is missing – work out which one.
- 4) Continue with your own research and fact file.
