

## Lesson 1: Images for questioning

1) Write down, or if needed research, about the five images (A – E) below. Write your thoughts about the materials used; what the object was for; who was it for and any questions you have about them.

2) Write any thoughts and questions you have about this image. For example: who are the two men outside the sarcophagus? What could they be talking about? Why would they want to be looking at the object? When do you think this photo was taken and what evidence for your estimate do you have?

3) Carry on with your own Egyptian research for your fact file and double page spread.
